PROFESSIONAL PROFILE

Adobe Commerce Certified Developer with 9+ years of experience building scalable eCommerce solutions. Specialized in Magento 2 module development, system migrations (2.4.x), and complex ERP integrations. Focused on performance optimization and CI/CD implementations. Successfully led 3 Magento 1 to 2 migrations and developed 15+ custom modules currently in production.

Fast learner and I love to share my knowledge with others. I'm getting used to solving problems and helping people make things faster and easier.

TECH SKILLS

- **Core Skills:** Magento 2 (MCD), PHP 7/8, REST APIs, MySQL/MariaDB, Elasticsearch/Opensearch, RabbitMQ, Varnish, Redis, Docker, Git, CI/CD, Linux/Ubuntu, Knockout.js (KO), jQuery, LESS/SASS, JavaScript, HTML.
- **Tools:** PHPStorm, Xdebug, Jira, Agile/Scrum, Confluence, Bitbucket, Github.

SOFT SKILLS

- **Technical Communication:** Clear explanation of complex concepts to cross-functional teams
- **Agile Leadership:** Mentoring junior developers in Magento projects
- **Proactive Problem-Solving:** Analytical approach to debugging and performance optimization
- **Cross-Cultural Collaboration:** Experience with international teams (Chile, Argentina, Bolivia)
- **Continuous Learning:** Up-to-date with latest Adobe Commerce versions and PHP standards
- **Adaptability:** Successfully transitioned between backend/full-stack roles

PROFESSIONAL EXPERIENCE

Senior Magento Fullstack Developer

Mar 2024 - Mar 2025

Grupo Distelsa (Contracted via Widoor) — Guatemala

Remote

- **Payment Gateway Integration & Card Management:**
 - Designed and implemented a secure payment method for TecnoFácil, integrating Cybersource API (Visa) for transaction processing.
 - Developed key features: card tokenization (secure storage), payment method listing, and API-based transaction flows.
 - Integrated Kevel (Adzerk) for ad management and Braze for post-purchase campaign automation (email/SMS) and conversion tracking.
- **E-commerce Platform Management & Optimization:**
 - Technical administration of max.com.gt and tecnofacil.com.gt (Magento/Adobe Commerce platforms).
 - Improved product load performance (bulk CSV imports, real-time inventory sync) and reduced page latency.
 - Deployed promotional banners and landing pages aligned with marketing strategies (custom HTML/CSS/JavaScript).
 - Ongoing maintenance: Debugged post-update module issues, enhanced UI/UX across PDP (Product Detail Page), PLP (Product Listing Page), and checkout flow.

Senior Magento Backend Developer

Ene 2023 - Ene 2024

Linets SpA — Chile

Remote

- **Database Migration:** Updated customer and product attributes schema for Magento 2.4.6 compatibility
- **ERP Integration:** Refactored order synchronization module for PHP 8 compliance (insert/update operations)
- **Checkout Optimization:** Enhanced checkout flow improving transaction success rate by 25%
- **Payment Solutions:** Developed custom payment gateway module supporting multiple providers
- **Cloud Infrastructure:** Configured Adobe Cloud environment for Adobe Commerce 2.4.6 deployment
- **Shipping Methods:** Upgraded carrier integrations for latest Adobe Commerce APIs

- **Frontend Performance:** Fixed Knockout.js data binding issues optimizing checkout payload
- **Version Upgrade:** Successfully migrated from Magento 2.4.4 to 2.4.6 (zero downtime)
- **Code Migration:** Executed Git-based instance migration with full data integrity

Senior Magento Fullstack Developer

Balloon-Group by Fastforward.ai — Argentina

Ene 2022 - Dic 2022

Remote

- **Tracking Implementation:** Customized theme to integrate TikTok, Facebook, and Google Pixel tracking across multiple websites.
- **Analytics Configuration:** Deployed and configured pixel-based tracking for all eCommerce platforms.
- **Live Chat Integration:** Implemented a chat widget for customer support on high-traffic pages.
- **Backend Optimization:** Resolved data-display issues in the admin order management panel.
- **API Enhancement:** Upgraded order-processing module to streamline API-based order submissions.

Semisenior Magento Fullstack Developer

Summa Solutions — Argentina

2021 - 2022

Remote

- **REST API Development:** Designed custom attributes for REST service configuration. Built Magento-compatible endpoints and web APIs
- **ERP Integration (Janis):** Translated Janis ERP responses into Magento-compatible data formats. Automated Magento-Janis order synchronization and status updates
- **Checkout Customization:** Modified checkout UI to dynamically display Janis-connected shipping methods

Magento Fullstack Developer

Grupo Formax — Chile

2021

Remote

- **Product Catalog:** Created custom product attributes to extend catalog functionality in Magento 2
- **ERP Integration:** Upgraded REST API connector module to support new payment gateways and shipping methods
- **Payment Systems:** Enhanced PagoEfectivo and Izipay processors for real-time ERP data synchronization
- **Shipping Logic:** Developed product-type based algorithm for accurate delivery day calculations
- **Store Development and Infrastructure:** Designed custom Magento theme for local retail requirements. Configured multi-website store with localized environment settings.

Magento Full Stack Developer

Wagento Commerce — EEUU - Bolivia

2014 - 2021

Híbrido

- **Payment Solutions:** Developed offline payment modules for Dismac including QR code and bank transfer methods
- **ERP Integration:** Designed and implemented REST API module for Magento-to-ERP order synchronization
- **Subscription System:** Created Braintree Subscriptions module for recurring payments
- **CRM Integration:**
 - Built Zendesk connector for customer service integration
 - Developed Salesforce module for email campaign management
- **Survey System:** Implemented SurveyMonkey connector via OAuth for customer feedback collection

Web Developer

Innova BI — Bolivia

2013 - 2014

On-site

- **Andean Books E-commerce:** Developed a book sales platform featuring advanced catalog management. Implemented search functionality with filters (title, author, category).
- **Cemetery Management System:** Built a web application for local cemetery administration. Designed database architecture for burial records and plot management.

FREELANCE PROJECTS

- **Magento 2 Technical Consultant** 2022-2024
 - **Argentinian eCommerce Store (2024):** Diagnosed and resolved cart/catalog rule conflicts. Optimized promotional rule processing time by 35%
 - **Andrew Cristian Electronics (2022):** Debugged and repaired payment gateway integration. Implemented secure transaction logging system.

- **Full-Stack Developer**

2019-2021

- **Multi-Retenes eCommerce:** Built Magento 1 catalog with custom responsive theme, implemented SEO best practices (metadata, URLs, sitemaps) and increased organic traffic by 60% within 3 months
- **Medical College of Santa Cruz:** Architected member registration web application. Developed advanced search with filters (name, specialty, region) and served 500+ medical professionals.
